ABOUT US

Bumer Web App was designed by **Jireh Connections (Pty) Ltd** a custom software development company that has developed and maintained solutions in Government and Private sector.

The Web App was launched on 03 July 2019 and was covered by different media houses including Lowvelder. Designed to efficiently enhance the way small businesses do their business (this includes invoicing, revenue, salaries, assets, POD, reporting and more) to maximize profit and proper management. No professional skills required it is designed to be used on any device. **bumer.co.za** a most affordable business web system.

STRATEGY AND VISION

- To provide professional, value-added as well as best practice services to all our clients
- Prioritize its customers in making sure they are served at the highest level with responsiveness using technology to process, analyze and solve queries.
- To be loyal to consistent in product maintenance and versions upgrades
- Bumer plans to work with government to assist SMME's manage business better through the use of our affordable tool **bumer.co.za**
- We also offer packaged solutions for accountants that manage numerous companies. This will help accountants also buy bulk licenses packages for their clients. This will help pull reports easy for expenditure, income and so fort.
